ping Cattle to Kill Ticks.

San Antonio Express.

While all the world knows of the experiments at dipping cattle to cure them of Texas or splenetic fever at Fort Worth, few people are aware that a Southwest Texas man is entitled to the credit for discovering this method of freeing Texas cattle of the ticks that prevent their free and unrestrained shipment to the Northern mar

More than six years ago R J Kleberg, managers of Mrs. King's Santa Gertrudes ranch after years of investigation and research came to the conclusion that the tick was the cause of the Texas fever and that it was through the tick that Northern DI. R. P. Anderson cattle became infected with the another and equally great adfever which was always fatal

Mr. Kleberg tried many plans for freeing the cattle of the Graduate Vanderbilt Dental College ticks and finally devised the DECLARED YELplan of dipping the cattle in a solution that would kill off the He had constructed on the Santa Gertrndes ranch a dipping tank, so arranged that by means of a tilting platform the and completely inmersed in the Call early and secure bargains.
